## Clean & Care Instructions

### FABRIC MAINTENANCE

- .Concerning the frequent cleaning of the fabric upholstery, use a soft cloth in order to remove dust.
- .Maintain textiles away from direct sunlight.
- .For further care of the textiles try vacuuming or a light brushing.

### STAINS

- .We recommend that stained or soiled textiles be professionally cleaned.
- .In another case, try to act quickly and clean the surface with a white well-cleaned cloth, dampened with lukewarm water.
- .Do not apply solvents, alcohol, or any other chemical cleaners.
- .Let the fabric dry in the open air. Don't iron or vaporize.

### CUSHION MAINTENANCE

- .Rotate and flip cushions when vacuuming for even wear.
- .They have to be tidied up and aired frequently, shaking the material inside, which by doing so will distribute and adapt itself uniformly.
- .Cushions with goose-down padding must be "shaken-up" periodically, gently beating them with your hands and leaving them in the open air in such a way as to evenly settle the padding and to avoid flattening and creases.
